## LIBRARY STAFF & PARTNERSHIPS

**Awareness** is important for everyone who works in the library, from the porter (may be the first contact) to the senior librarian (strategy, decision maker)

**Train staff** who can specialise in serving users with dyslexia. Although they may be the user's primary contact, make sure that all library staff can offer basic guidance

Create the possibility to book **'your personal librarian'**. A personal librarian makes it easier to come to the library and helps to create a feeling of security

**Share knowledge** and work together! Inside and outside the library

**Involve users** with dyslexia in the library service

An **integrated approach** covering the whole library service and extending over several years is a necessity

Provide **sufficient resources** for materials, staff, marketing campaigns and other requirements

## MARKETING

**Welcome-leaflet:** easy-to-read and informative, available in both printed and digital versions, and distributed in and outside the library

**Accessible website and catalogue**

Organize a frequent **drop-in café** with technology support and the opportunity to meet library staff with specialized knowledge of dyslexia. This kind of event will enable users to talk to persons with similar challenges.

Write **articles about the library service** in local newspapers

Organize **training courses and activities** on a range of subjects, reading clubs, digital newsletters, easy-to-read book of the month, homework support, all kind of events

Use **social media** as Facebook, podcasts, youtube, ...

**Join events outside the library:** meet persons with dyslexia where they are

Mijn school is: (...) Ruiselede

Mag ik het materiaal en de werking van Luisterpunt ook bij **anderstalige leerlingen** kenbaar maken? **Door de taalachterstand hebben zij m.i. ook een leesbeperking en kunnen zijn ook wel audio-ondersteuning gebruiken** bij het lezen.

Alvast bedankt.

Vriendelijke groeten,

Ellen

Can I use the books from Luisterpunt for non-Dutch speaking children? In my opinion they have a reading disability because of their language delay and they can benefit from audio support while reading.
